Good evening, this can be done at Admin /PD level but I believe adding a no parking zone by the residential entrance for emergency vehicles (especially VRS) should be in our thoughts. At least 2 spaces as this is a tough area of Bloomfield Ave to be loading a patient in the rig. With 65 units, this is a concern by VPD.

I would also recommend a contingency on emergency services radio coverage in the parking garages, as well as cell service. If a booster is needed for either, it would be required to be installed by the developer.
