I'll echo the Chief's comments that from an emergency management nexus, the Office of Emergency Management would also like to ensure that there is communication from the business to our office for any planned events that may require agency coordination outside of normal public safety operations.

This request is not solely for this business, but what we ask of all businesses or entities in town that are hosting gatherings in which the occupancy capacity may exceed what would be considered "normal operations" for their day to day use.

The more preparation we have from an emergency planning standpoint, the safer our residents and visitors are going to be when they attend events in Verona.
