FIRE PERMITS (General Provisions)

A. APPLICATION

The first step in applying for a Fire Permit is to complete the "Fire Permit Application." The application should be fully and accurately completed. The appropriate permit fee should accompany the application.

B. GUIDELINES FOR APPROVAL

In general, the "Fire Permit Application" should be accompanied by a "Letter of Intent," a "Construction Permit" or a "Site Plan" with appropriate approvals as required by the Municipality, County or State Licensing Board. Some permits may require additional provisions for Liability Insurance, Zoning and/or Planning Board approval(s). Establishments seeking a permit for any permanent cooking operation requiring a suppression system must provide an equipment/maintenance Inspection Report from a certified contractor, completed within the last 6 months of application for issuance. If the system is monitored, a signal transmission report must also accompany the "Application Form." Any establishment protected in this way must also be equipped with an outdoor Knox Box.

C. ISSUANCE

The Fire Official will administer and issue the Fire Permit. Said permits will be issued from the Fire Prevention Bureau and made a part of the Annual Report to the NJ Division of Community Affairs (DCA).

D. USE

The area or activity to be regulated by the Fire Permit will be inspected by a fire official and subject to all regulations as set forth by Local Ordinance, the New Jersey Uniform Fire Code (UFC), Uniform Construction Code (UCC) and applicable procedures and specifications as set forth in the National Fire Protection Association (NFPA). It is the responsibility and obligation of the Permit holder to understand and be familiar with these provisions as enforced by the Fire Prevention Bureau.

E. ADMINISTRATIVE APPEAL

The applicant is entitled to an Administrative Appeal if an application is denied.

Please call the Fire Prevention Bureau at 973 857-4761 with any questions.
Thank you.
