

Dear Elected Official and Professional Staff:

During the current COVID-19 health crisis, customers who may never have been behind on their bill may be looking for financial assistance. The Low Income Home Energy Assistance Program (LIHEAP) is still taking applications. Like most of America, LIHEAP agencies are not taking walk-in traffic, but customers can still submit a LIHEAP application online or by fax. Sending an application by mail is also an option.

To receive LIHEAP assistance, customers should meet income eligibility requirements and submit a completed application. Applications can be downloaded through the PSE&G website at [pseg.com/help](http://pseg.com/help) or [pseg.com/ayuda](http://pseg.com/ayuda) (Spanish). (Note: customers do not have to be behind on their bill to receive LIHEAP, and customers who have already received LIHEAP this season may also be eligible for additional assistance through LIHEAP.)

For more information about the LIHEAP program, or other energy assistance programs, call 1-800-510-3102 or '211' seven days a week.

We strongly encourage you to please share this important information in any manner (township website, Facebook page, township newsletter, council meeting, municipal TV, etc) that will help advance this communication.

Thank you,

PSE&G Regional Public Affairs Team
